Caron,

I believe we are on the same page, but fear we may be talking past one another. To clear up any doubt, and as counsel for FCAA authorized to speak on its behalf, I am confirming that section 403.086(10)(e)(3) applies to operation of the shallow wells.

I trust that with this additional written confirmation of our mutual understanding, and in light of DEP's Order Closing File issued earlier today, everyone is prepared to move beyond the referenced matter and to focus on operational testing of the deep well. Please let me know if you have any additional questions or concerns.

**Frederick J. Springer** | **Bryant Miller Olive**
